RE: File # 2002-01737, Lucerne Ave, Laconia  
Tax Map/Lot # 155 / 18; Block 112

Dear Mr. Bertholet:

On August 10, 2006 the New Hampshire Department of Environmental Services, Wetlands Bureau ("DES") inspected property located at Interlaken Ave, Laconia ("the Property"). The purpose of this inspection was to determine whether violations of RSA 482-A and Administrative Rules Env-Wt 100-800 had occurred on the Property.

At inspection, the following violations were observed:

1. The beach had been replenished without a permit. A large channel on the beach, documented in May 2006, has been filled in and a large rock that had been submerged under a layer of sand provides evidence of the beach replenishment.

This Notice of Past Violation ("Notice") is to inform you that the violations referenced above have been documented and will be maintained on file at DES. No further action is required of you relative to these violations and DES will take no further enforcement action at this time. This Notice is being sent to help you avoid similar violations in the future so as to protect wetlands and surface waters from unregulated despoliation before violations occur.

In an effort to promote better understanding and compliance with wetlands laws and rules, DES provides an "inspector of the day" service available to the public to address technical questions related to wetlands regulation. This service is available Monday through Friday, 8:00am to 4:00 pm by calling (603) 271-2147. DES encourages you to make use of this service as well as our website (<http://www.des.nh.gov/wetlands.htm>) before undertaking future work on your property.

If you have any questions regarding this matter, please feel free to contact DES at (603) 271-2147.

Sincerely,
